

PIPECHAIN SCM **SUPPLY CHAIN**

WORLD-CLASS SUPPLY CHAIN MANAGEMENT WITH PIPECHAIN SCM

Streamline and digitalize your supply chain with a trusted partner with over 40 years of experience in automotive and retail. No matter what industry you operate in, we have the knowledge and solutions to help you increase your efficiency.

We are committed to solving problems that create real value. We find new ways to create smarter supply chains by being curious, creative and customer-focused.

Create successful results through

- ✓ **Cloud-based and ERP-independent:**
Always up-to-date, no hardware investments.
- ✓ **All suppliers in the same system:**
Smooth processes regardless of technical conditions.
- ✓ **Automation and integration:**
Minimize manual work and maximize precision.
- ✓ **Data as a competitive advantage:**
Collect, analyze and visualize data to improve operations and future-proof processes.
- ✓ **Deviation-based working method:**
Focus on what is not working, to quickly fix it.

Solutions for Automotive

Turbocharged Flow with Integrated Production Systems

PipeChain has been helping the automotive industry optimize production flows for over 30 years. Our cloud-based EDI solutions are tailored to ensure the highest precision in the manufacturing process, from delivery plans to sequence control. With automated processes and integrated systems, we strengthen the entire chain, minimizing risks and improving collaboration between actors.

- EDI-based solutions: Control your manufacturing process with a configurable dashboard.
- Visual analysis of delivery plans: Adjust your operations using graphs and charts.
- Automated sequence control: Ensure the right delivery at the right time.
- Supplier portal for non-EDI suppliers: Smooth processes for everyone.

Result: Increased data quality, less time spent and smoother collaboration between actors in the supply chain.

Solutions for Retail

Build Competitive Advantage with Digitalization

With PipeChain's fully integrated software solutions, trading companies get a powerful platform to automate and digitalize their customer and supplier processes. We understand your specific challenges and create a customized process that improves profitability and reduces errors.

- EDI solutions according to GS1 and ESAP20 standards: Improved communication and data quality.
- Supplier portal for non-EDI suppliers: Compare and manage all suppliers equally easily.
- Peppol integration: Standardized and smooth e-commerce globally.
- Automated logistics processes: Correct labeling and scanning of goods reduces errors and saves time.

Result:

Improved profitability with more efficient logistics and reduced errors.
